

COMPOSITION OF AIR PIE CHART

Vision empower

By:
Caren

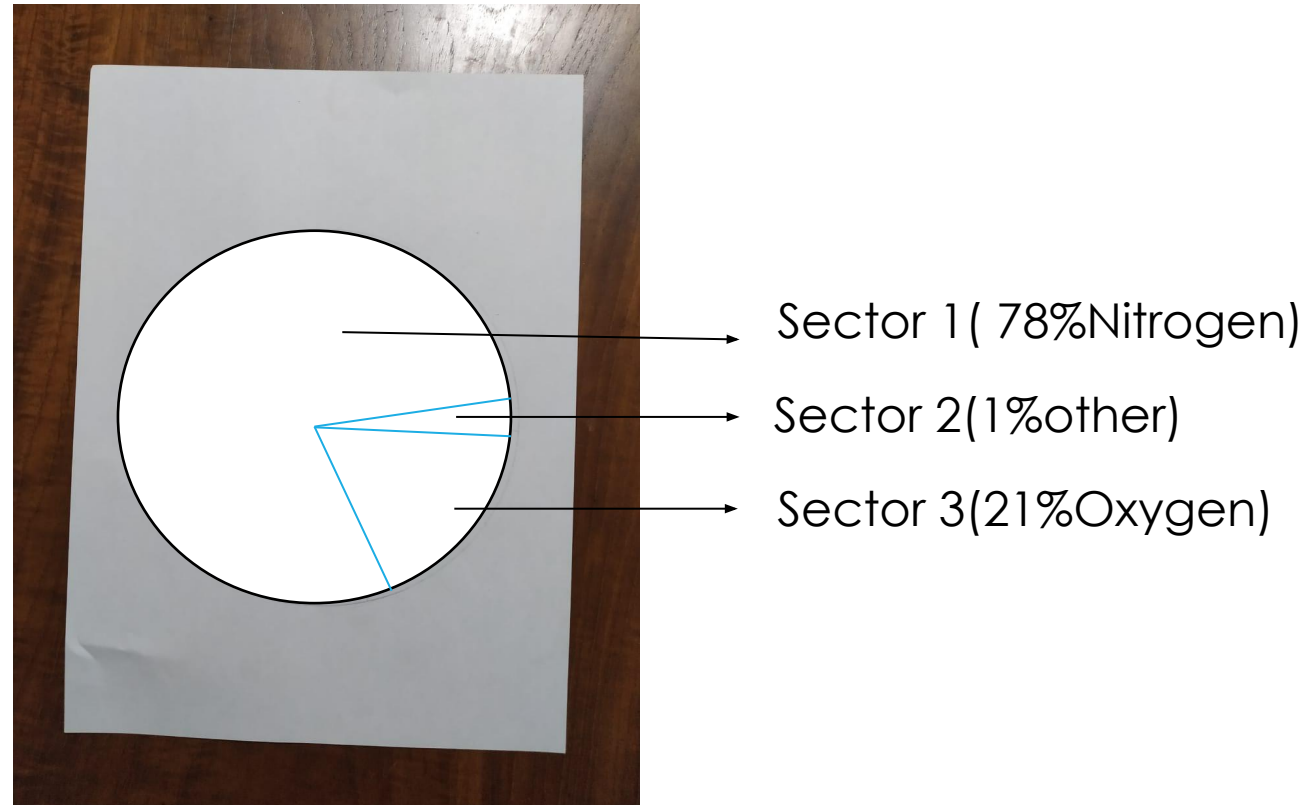

MATERIALS USED:

1. A4 paper- 1
2. Shiny and smooth gift wrapping paper
3. Handmade sheet
4. Foam sheet
5. Glitter foam sheet
5. Embroidery thread
6. Gum (Fevicol to paste)

Steps involved:

Step1:Take a sheet of A4 paper. Draw a circle with a pencil and divide it into three sectors of required area with respect to proportion of each components in air. Lets name the sectors as sector 1,sector 2 and sector 3.

Step2: cut out gift paper, foam sheet and handmade sheet in the shape of the three sectors.

Handmade sheet cut out in the shape of sector 3

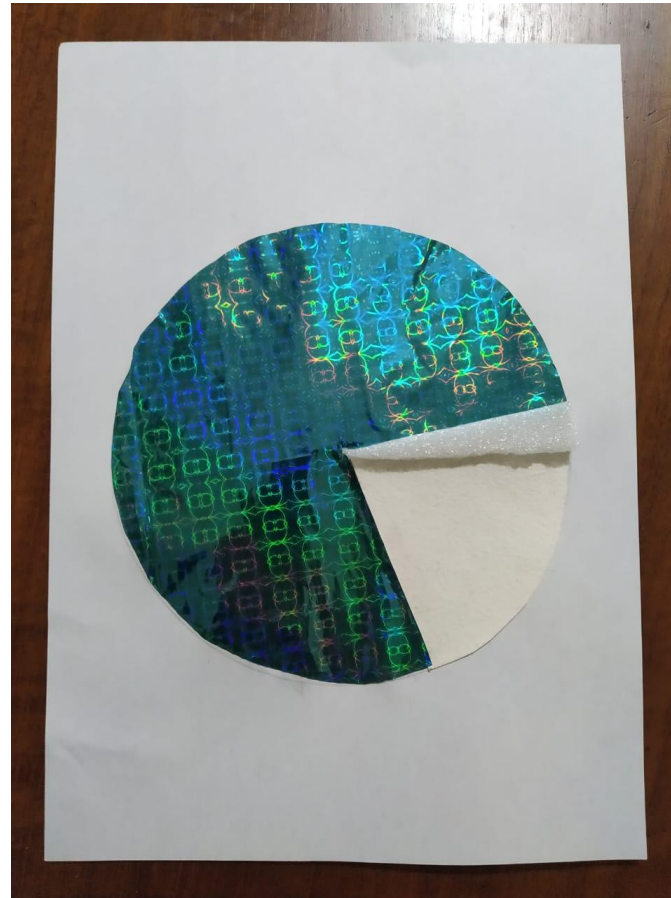

Foam sheet in the shape of sector 2.

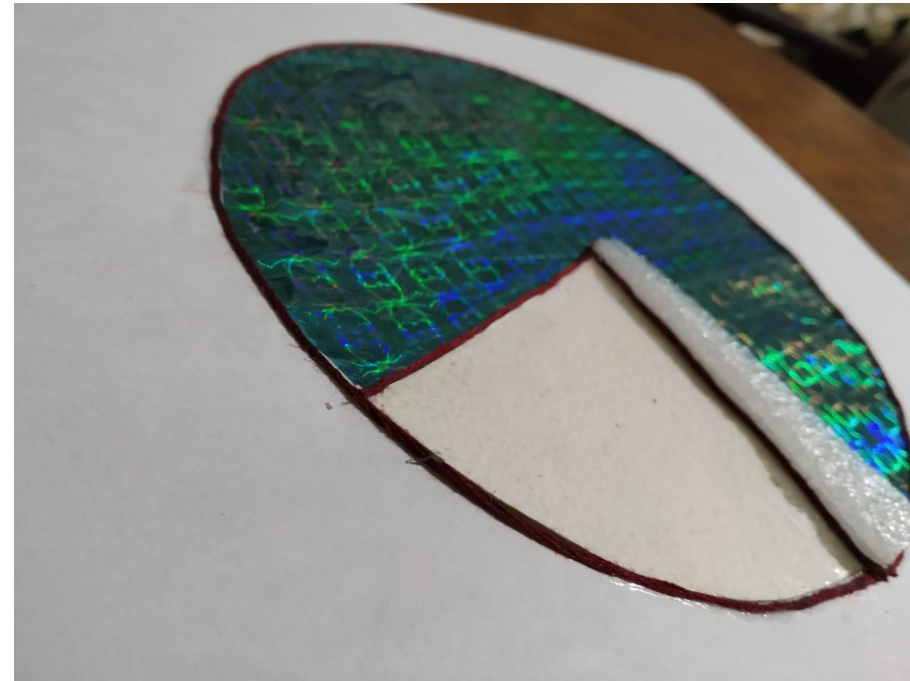

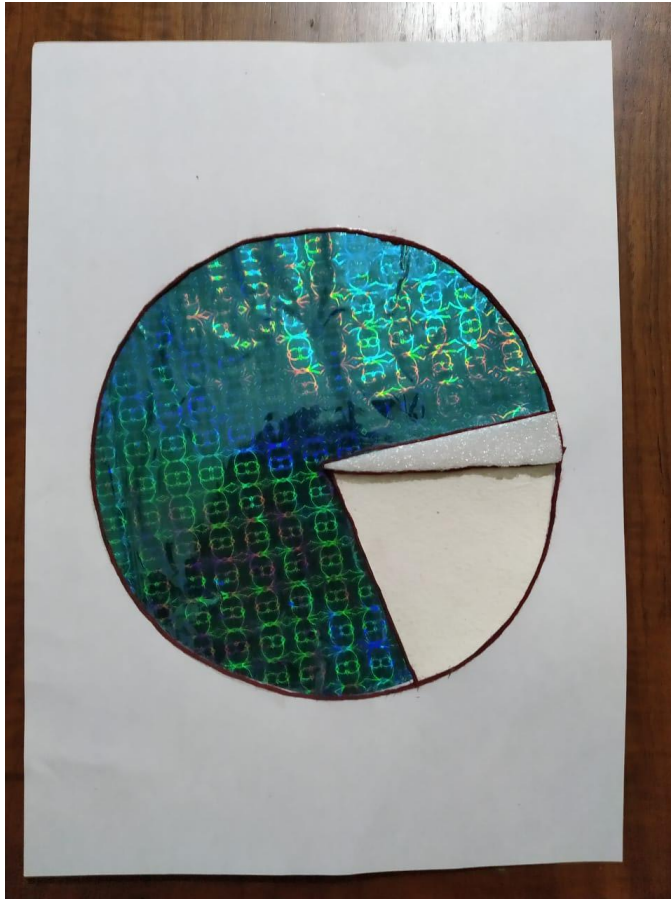

Cut the Smooth gift paper into the shape of sector 1

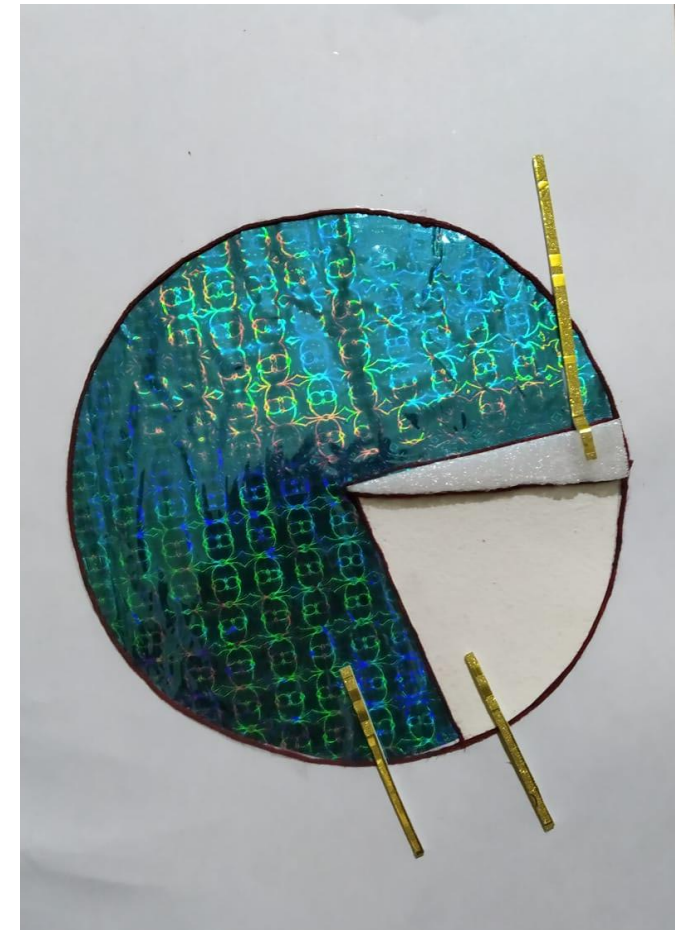

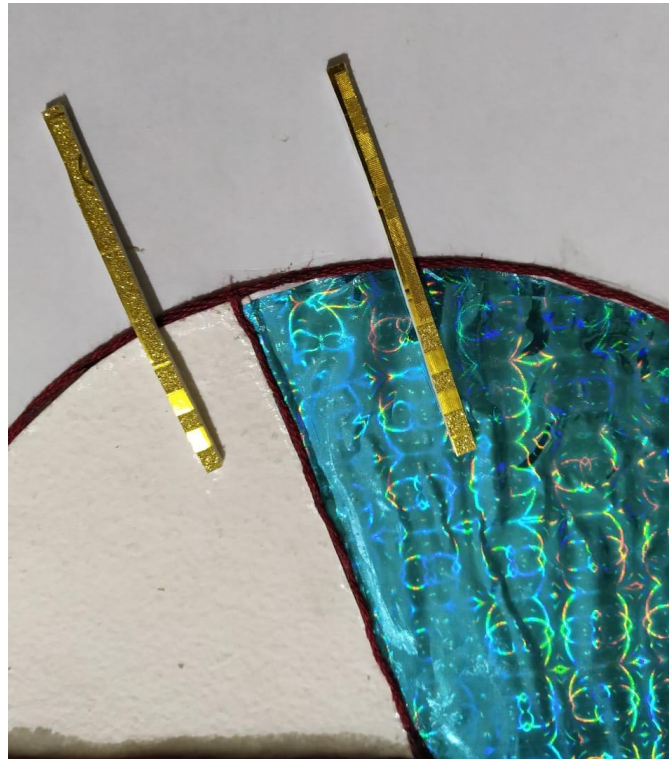

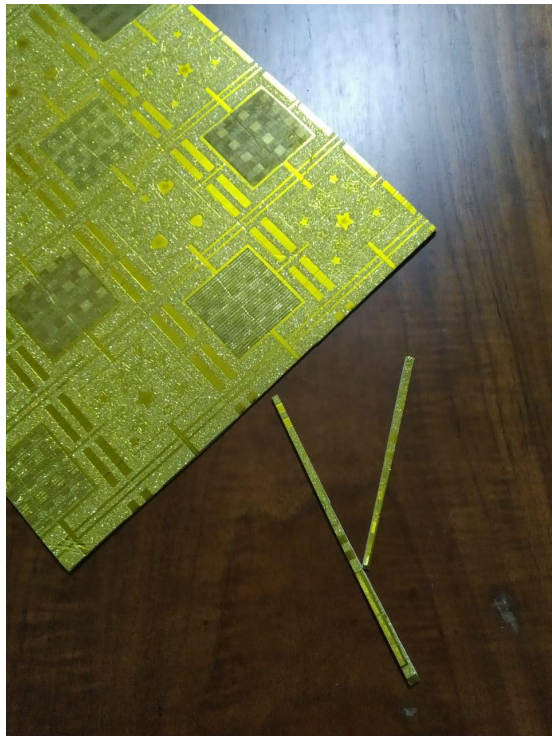

Step3: using a glue paste the cut outs of each sector on the A4 sheet at the matching sectors (I used Fevicol glue)

Step4: Use a an embroidery thread and paste it as in the image to outline the boundaries of the circle and the sectors.

Step5: Cut thin strips of glitter foam sheet to show lines for labelling. Paste the cut out strips as in the given image.

Step6: Write the labelling in braille script.

Our pie chart is ready...

THANK YOU!!!

Hope you enjoyed:)
